FM FUNCTION MEDIA LLC

CAPABILITY STATEMENT · 22 NOV 2026

Evidence-aware software for public missions.

Decision-support software that keeps every finding tied to its source, its time and the person who reviewed it: operational intelligence (VERISCOPE™), food safety (SAFEPLATE™) and K–12 district operations (NORTHLINE™).

SAM.GOV	UEI	CAGE	NAICS	LOCATION
Active	M72WSZAJXQQ3	*Confirmation pending*	*Confirmation pending*	Brooklyn, NY

CORE COMPETENCIES

- **Evidence provenance.** Source, time and transformations kept with every record; hash-chained audit logs.
- **Entity resolution on public records.** Tested under frozen protocols against simple baselines.
- **Forecasts scored honestly.** Predictions recorded before outcomes and scored against a baseline; results published even when they show no gain.
- **Public-data ingestion.** FDA, USDA, CDC and NYC Open Data, with provenance, quarantine and visible failures.
- **Human-reviewed decision support.** Role-based access and review queues; an authorized person decides.

DIFFERENTIATORS

- Pre-registered tests: criteria frozen before data is scored.
- Failures published alongside successes.
- No customer, certification, deployment or government approval claimed unless it exists.

COMPANY DATA

Legal name	Function Media LLC
SAM.gov	Active since 3 Jun 2026; renewal 1 Jun 2027

PAST PERFORMANCE

None listed. We list only performance we can document with a contract or a named, consenting reference.

EVIDENCE REGISTER (EXCERPT)

VERIFIED	**Function Media LLC** Registered and active in SAM.gov (UEI M72WSZAJXQQ3).	3 Jun 2026
VERIFIED	**SAFEPLATE™** 713 food-safety warnings recorded before their outcomes, on real official data; every one cites at least one source.	15 Nov 2026
VERIFIED	**VERISCOPE™** 339 of 339 automated tests pass, and one real public record was followed end to end with a hash-verified evidence bundle.	15 Nov 2026
VERIFIED	**NORTHLINE™** Pre-registered retrospective test on 75,563 NYC public school-bus records: the night-before forecast of reported delays beat a “late yesterday” baseline by 16.0% Brier skill.	15 Nov 2026
IN PILOT	**NORTHLINE™** Running unattended on a protected test site with live NYC public data, ingesting every 15 minutes since 15 Nov 2026.	20 Nov 2026
PLANNED	**SAFEPLATE™** Representative prototype demonstration (TRL 6), with at least 20 prospective outcomes decided from official records.	Target 14 Dec 2026

VERIFIED: proof exists today. IN PILOT: live test environment on real public data, not a customer deployment. PLANNED: not done yet. Full register with sources: functionmedia.us/government/#evidence
